

MOONBOX-400

(Real dimensions)

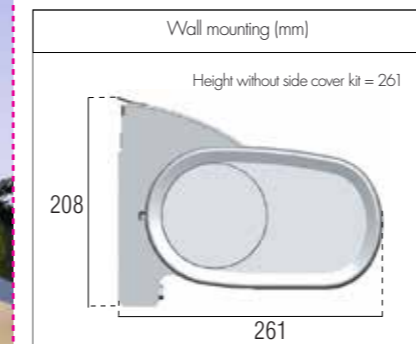

Soft lines' elegance and serenity

MOONBOX-400 is a cassette awning that inspires a world of sensations. Its combination of materials and rounded shapes gives it a Zen look, a bold design and an air of distinction. With just one set of arms it covers an area up to 6.00 m width and 4.00 m projection.

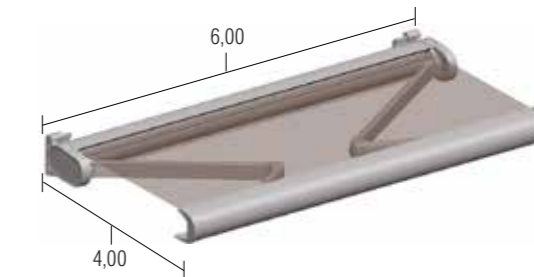

MOONBOX-400 highlights:

- Its soft shapes are inspired by planetary orbits that gives it a unique and balanced look.
- All side caps are made in lacquered aluminium for a higher resistance and state-of-the-art design.
- The adjustment of the inclination angle can be modified through its rack system.

Maximum dimensions

Finishes

Lacquer in accordance with QUALICOAT standards
Stainless steel screws and bolts
Arms with integral laquering

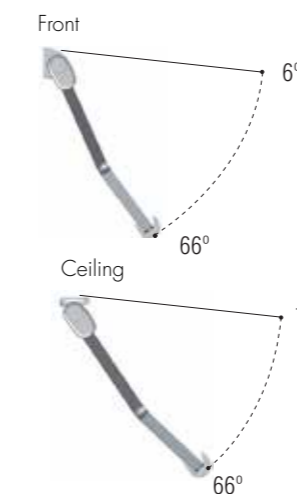

Compatible with the arms:

ONYX Y ONYX LUX
Its tension system does not damage the lacquering and provides more tension and resistance compared with cable and chain systems. Full integrated lighting system. No cables in sight.

SPLENDOR 400
The concealment of all the transmission components in the join give the Splendor arm range a cutting edge look.

Usual installations

Terraces 
On large terraces 

Mounting

 Frontal
 Ceiling

Classification

 Wind
 Durability

UNE-EN 13561:2015 standards

Operation

Manual
 Motorised
 Automated
